| a Berkley Company

Dear Broker Partner,

In light of recent California Insurance Department Bulletins addressing premium relief options due to COVID-19, we want to share with you how Preferred Employers Insurance, A Berkley Company is assisting customers.

The company is actively working very closely with policyholders, agents and brokers on a case-by-case basis to provide premium assistance wherever possible. This is being accomplished using various premium adjustments including: converting to monthly premium payment plans based on actual payrolls and providing various premium relief options on individual policies as needed.

---

We are also compiling information regarding our premium assistance actions in order to complete the reporting requirements of the Department of Insurance. This report is due in 60 days and will describe our plans with respect to potential premium relief solutions for certain of the customers adversely affected by the COVID-19 situation.

Thank you for your understanding and support.

**Let's be in touch.**

**Rick Chen**, Regional Sales & Distribution Manager
